

No Mobile Phone Policy

AIS is committed to creating an environment that is calm, safe, and free from distractions, enabling all students to learn and thrive. Mobile phones present significant challenges, leading to distractions, disruptions, and diversions. Students using their mobile phones during sessions not only distract themselves but also disrupt the entire class, diverting teachers' efforts from effective teaching.

Objectives

We are dedicated to maintaining a learning environment where students are fully engaged and safe. By prohibiting mobile phones throughout the school day—including lessons, breaks, and lunchtimes—we aim to:

- Enhance child protection and well-being.
- Address data protection issues.
- Reduce the risks of cyberbullying.
- Minimize lesson disruptions.
- Prevent theft, loss, or damage.
- Promote appropriate technology use in the classroom.

By removing mobile phones, children can engage in face-to-face social interactions, positively impacting their well-being.

Policy Guidelines

- **No Mobile Phones on School Premises:** It is highly advised that students do not bring mobile phones to school. If a mobile phone is found within the student, it will be considered a breach of this policy.
- **Secure Storage:** If a student must bring a mobile phone, it must be stored securely in lockers at the start of the day. Access to mobile phones is prohibited until the end of the school day.
- **Strict Non-Use Rule:** Students who possess mobile phones must ensure they are never used, seen, or heard during school hours. Breaches of this rule will result in consequences, which will be enforced consistently and visibly.

Consequences for Breaches

Parents and pupils must be aware of the potential sanctions for violations of this policy:

Incident	Penalty
First incident	The mobile phone will be confiscated for 24 hours.
Second incident	The mobile phone will be confiscated for 48

	hours.
Third incident	The mobile phone will be confiscated for 72 hours.
Fourth incident	The mobile phone will be confiscated for 1 week.

- **Staff Authority:** School staff have the authority to search, screen, and confiscate phones if there is reasonable suspicion that the device is being used to commit an offense or cause harm.

In case a student is found in possession of a mobile phone, the following procedures will be followed:

- 1. Confiscation Report:** A confiscation report will be filed.
 - 2. Written commitment:** The student must sign a written commitment promising not to repeat the offense.
 - 3. Notification to Parent:** The parent or guardian will receive a notification informing them of the offense and the confiscation of the mobile phone.
 - 4. First Violation:** In the case of a first violation, the mobile phone may be returned to the parent/guardian personally, and not to any representative, after the parent/guardian signs a commitment that the student will not repeat the offense. The mobile phone will be returned to the parent/guardian with a handover report.
- If the violation is repeated after the first time, the parent/guardian will be notified of the violation, and the student will be required to sign another written commitment. The mobile phone will be confiscated for the periods specified in the table above.
 - If the violations continue to occur, the student will be referred to the students' counselor for a case study, and the parent/guardian will be summoned to the school.

Review and Feedback

This policy is a vital student safeguarding requirement and will be regularly reviewed to assess its effectiveness. We welcome feedback from students and parents to ensure it remains relevant and serves the best interests of our school community.

Thank you,

AIS Management
